

CH₂O-207

FORMALDEHYDE & HUMIDITY TESTER

- Detects the concentration of formaldehyde gas and air humidity
- Widely used in interior decoration, decoration materials, chemicals, environmental monitoring and industries
- CH₂O zero calibration in clean air
- Max. CH₂O alarm
- Records Min /Max value of humidity
- Built-in calibration function and strong anti-jamming capability
- Compact in size, easy to carry

Technical specifications

Measuring range:

Formaldehyde: 0~4.00 ppm;
0~5.00mg/m³, ±5.0%

Humidity: 30.0~90.0%RH, ±3%RH

Resolution: 0.1ppm /0.01mg/m³; 1%RH

Response time: <30s (@20°C)

Dimensions: 95x180x35mm

Battery: 9Vx1, 6F22

REF: 030207X0950

CE (EMC), UL, CE (LVD)
