

## DT2239B

### STROBOSCOPE

- Non-contact type, no need of reflection tape, widely used to measure the RPM of any turning objects
- Wide measuring range and high resolution
- Digital display gives exact reading with no guessing or errors
- With fine adjustment
- Low power consumption

#### Technical specifications

Display: 5 digits, 10mm LCD

Measuring range: 60~19,999 RPM

Measuring distance: 500~2500mm

Resolution: 0.1 RPM (<1000 RPM)

1.0 RPM ( $\geq$ 1000 RPM)

Accuracy:  $\pm 0.05\%n + 1\text{dgt}$

Sampling time: 1.0 sec.

Battery: 1.5Vx4, AA size

Dimensions: 73x198x38mm

Weight: approx. 275g

Accessories:

REF: 032239B0000
