

ET803

DIGITAL EARTH TESTER

- Measuring earth resistance by constant current inverter 800Hz approx. 2mA, earth voltage by rectifier type 5k Ω /V approx. 40~500Hz
- Batteries operated - always ready for use on site
- 2000 counts LCD display with backlit, data hold

Technical specifications

Earth resistance: 20/200/2000 Ω , $\pm 2\%$

Earth voltage: 200V AC, $\pm 2\%$

Dimensions: 200x140x60mm

Battery: 1.5Vx6, AA size

Weight: approx. 700g

Sinometer

REF: 04E803X0000

CE (EMC), UL, CE (LVD)
