

HT-6510A, C, D

SHORE HARDNESS TESTERS

- A digital durometer for Shore hardness testing
- HT-6510A is for rubber-like hardness, and 6510C for softer (sponge-like), 6510D for harder (plastic-like)
- Pocket size with integrated probe
- Max and Avg value of hardness
- Optional RS232C interface to computer
- Low battery indication
- Display in mm and ft switchable

Technical specifications

Range: 0~100HA (type A)

0~100HC (type C)

0~100HD (type D)

Accuracy: $\pm 1\%H$

Resolution: 0.1H

Standard: DIN53505, ASTM D2240, ISO7619,
JIS K7215

Working conditions: 0~40°C

Battery: 1.5Vx4, AAA size

Dimensions: 162x65x28mm

Weight: approx. 170g

Accessories: plastic carrying case

REF: 036510A0000

☑ CE (EMC), ☐ UL, ☐ CE (LVD)
