

MV-400

UNIVERSAL VOLTAGE TESTER

- Auto AC & DC voltage range detected and indicated by bright LED
- Determines polarity on DC circuit
- Double pole, non-burnable rugged rubber grips with elastic finger guard
- High safety as per **IEC1010-1 Cat III 600V**, double insulated against electricity and heat
- Ideal for homeowners

Technical specifications

Rated voltage:

6V~400V DC & AC rms

Voltage indication:

8 red LEDs,

6-12-24-50-120-230-400V

Current consumption:

approx. 40mA max. at 400V AC

Max. operating period: 30 sec.

Frequency range: 0~60Hz

REF: 12M400X0215

CE (EMC), UL, CE (LVD)

Sinometer
