

SM8237B

NON-CONTACT PETROLIC TACHOMETER

REF: 108237B0000

☑ CE (EMC), ☐ UL, ☐ CE (LVD)

- Non-contact accurate RPM test of two/four stroke cars, trucks and other gasoline engines, hold the meter near the high ignition voltage and get the reading
- Trigger level adjustable
- Hi/Lo RPM value alarming
- Memories for Max/Min and last value
- Temperature measurement in °C or °F
- 5 digits LCD display with backlight
- Ideal diagnostic tool for car owners and service shops

Technical Specifications

CYL setting: 2/3/4/5/6/8/12

TACH: 100~20,000RPM, $\pm 1\sim 2$ RPM

Measuring distance: 30~200mm

Trigger : 4 levels presetable

Response time: 1 sec.

Alarm setting: 100~20,000 RPM

TEMP: 0~200°C /32~392°F, ± 2 °C

Resolution: 0.5°C

Battery: 1.5Vx3, AA size

Dimensions: 52x178x48mm

Weight: 220g approx.

Accessories: K-type temp. probe

Sinometer
