

TS-100

BODY SCANNER /METAL DETECTOR

- Ideal for security check and entrance control at airports, industrial sites, government buildings, schools, hospitals, conferences, sports events, etc.
- High sensitivity capable for detecting metal objects of as small as coins in all directions
- **Weather-proof** housing, shock resistance
- Push on/off button in the grip for simple operation
- Auto-tuning, no adjustment needed
- Compact design for easy carrying

Technical specifications

Sensitivity: coins at 50mm, or 20 iron pipe-tube at 100mm, all directions

Sensitivity adjustment: no

Alert: silent vibration

Operating current: <8mA

Operating frequency: 30k Hz

Battery: 9Vx1, 6F22

Battery life (alkaline): upto 80 hours

Dimensions: 45x33x210mm

Weight: 250g approx.

REF: 12T100X3300

✓ CE (EMC), UL, ✓ CE (LVD)
